

OLDER ADULTS NEEDED FOR RESEARCH!

We are looking for **older adults (age 60+)**, either **with or without a diagnosis of Parkinson's Disease**, to take part in a study that will ask about aspects of psychological wellbeing and worries about others.

You will be invited to complete a **single set of questionnaires online** (or by post if preferred).

The results of the study will be used to better understand these experiences in older adults with Parkinson's Disease, how this compares to the general older adult population, and what interventions might be helpful for supporting wellbeing.
